Je, \_\_\_\_\_, déclare un intérêt pécuniaire en ce qui concerne l'article ci-haut mentionné, pour la raison suivante :

Name (print)	Signature	Date

This declaration is filed in accordance with the *Municipal Conflict of Interest Act* and will be recorded in the meeting minutes and will be made available in a public registry. / Cette déclaration est soumise sous la *Loi sur les conflits d'intérêt municipaux* et sera enregistrée dans le procès-verbal de la réunion et sera disponible dans un registre public.

## Excerpt from the Municipal Conflict of Interest Act, R.S.O. 1990, c. M.50

### DUTY OF MEMBER

#### **When present at meeting at which matter considered**

**5 (1)** Where a member, either on his or her own behalf or while acting for, by, with or through another, has any pecuniary interest, direct or indirect, in any matter and is present at a meeting of the council or local board at which the matter is the subject of consideration, the member,

- (a) shall, prior to any consideration of the matter at the meeting, disclose the interest and the general nature thereof;
- (b) shall not take part in the discussion of, or vote on any question in respect of the matter; and
- (c) shall not attempt in any way whether before, during or after the meeting to influence the voting on any such question. R.S.O. 1990, c. M.50, s. 5 (1).

#### **Where member to leave closed meeting**

**(2)** Where the meeting referred to in subsection (1) is not open to the public, in addition to complying with the requirements of that subsection, the member shall forthwith leave the meeting or the part of the meeting during which the matter is under consideration. R.S.O. 1990, c. M.50, s. 5 (2).

## Extrait de la Loi sur les conflits d'intérêts municipaux, L.R.O. 1990, chap. M.50

### OBLIGATIONS DU MEMBRE

#### **Participation à une réunion où l'affaire est discutée**

**5 (1)** Le membre qui, soit pour son propre compte soit pour le compte d'autrui ou par personne interposée, seul ou avec d'autres, a un intérêt pécuniaire direct ou indirect dans une affaire et participe à une réunion du conseil ou du conseil local où l'affaire est discutée, est tenu aux obligations suivantes :

- a) avant toute discussion de l'affaire, déclarer son intérêt et en préciser la nature en termes généraux;
- b) ne pas prendre part à la discussion ni voter sur une question relative à l'affaire;
- c) ne pas tenter, avant, pendant ni après la réunion, d'influencer de quelque façon le vote sur une question relative à l'affaire. L.R.O. 1990, chap. M.50, par. 5 (1).

#### **Exclusion de la réunion à huis clos**

**(2)** Si la réunion visée au paragraphe (1) se tient à huis clos, outre les obligations que lui impose ce paragraphe, le membre est tenu de quitter immédiatement la réunion ou la partie de la réunion où l'affaire est discutée. L.R.O. 1990, chap. M.50, par. 5 (2).

# City of Clarence-Rockland

## Development Charges Study

### Council Information Session

Monday, June 17<sup>th</sup>, 2019

**HEMSON**  
Consulting Ltd.

# Today We Will Discuss

- Background
- Bill 108: *More Homes, More Choice Act, 2019*
- Development Forecast
- Summary of Development-Related Capital Programs
- Draft Calculated Rates
- Next Steps

# Background

- Council passed Development Charge (DC) By-law 2015-13 which came into force on February 1<sup>st</sup>, 2015 that imposes DC rates for eligible City services
  - By-law's five year life expires on February 1<sup>st</sup>, 2020
- City must pass new a by-law before expiry date in order to continue collecting DCs

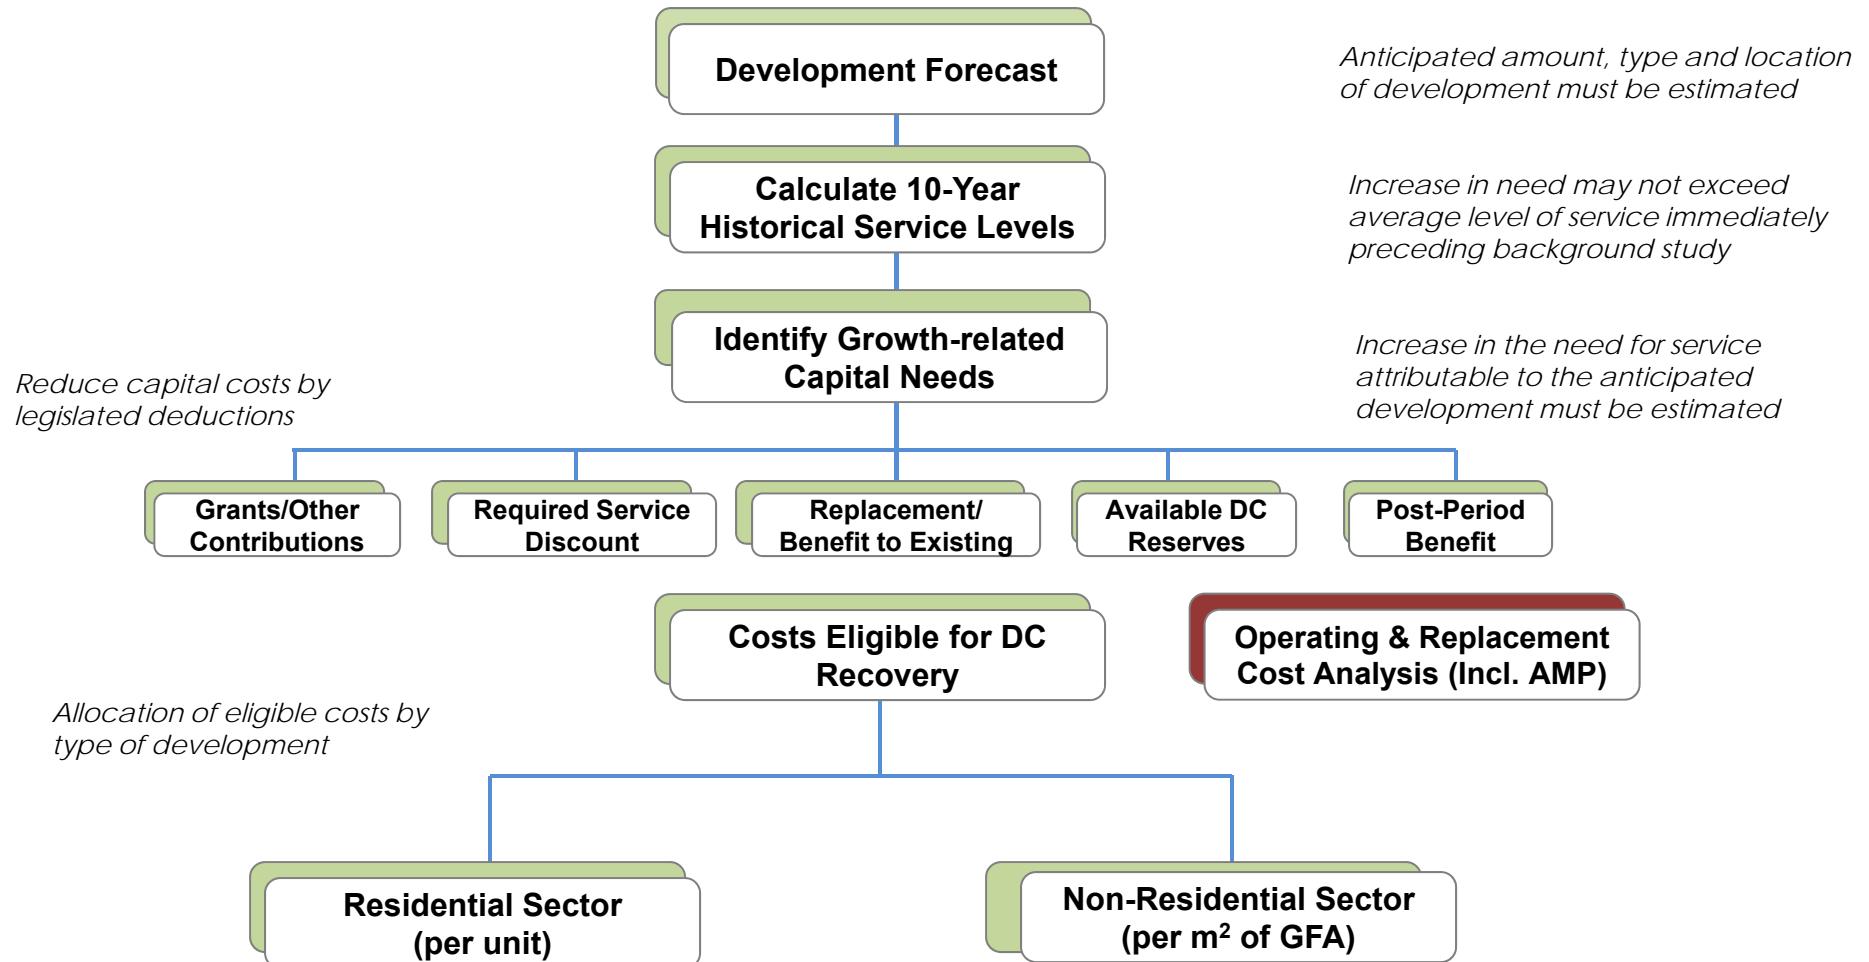

# What Are Development Charges?

- Fees imposed on development to finance “growth-related” capital costs
- Pays for new infrastructure and facilities to maintain service levels
- Principle is “growth pays for growth” so that financial burden is not borne by existing tax/rate payers

# DCs and Municipal Revenues

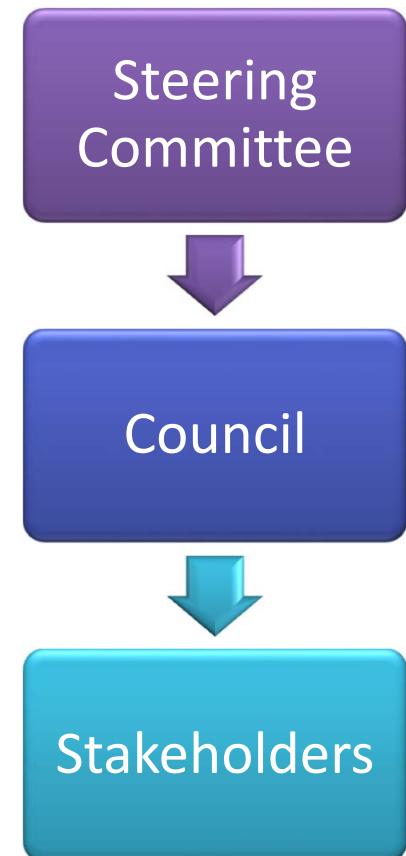

- Development charges
  - Fund significant portion of growth-related capital costs
- Direct developer contributions
  - Typically fund costs internal or related to a subdivision (i.e. local roads, water & sewer mains, sidewalks, streetlights)
- Property taxes/Utility rates
  - Fund operating costs and long-term infrastructure repair, maintenance, and replacement

# Overview of Study Process

# Stakeholder Consultation

- Meetings with industry stakeholders is proposed prior to the release of the 2019 DC Background Study
  - Provides opportunity to address issues/concerns early on in the process
  - Enhances communication and transparency
- Will be used to discuss key inputs of the DC Study (i.e. forecast, service levels, capital programs etc).
- These meetings will be in addition to the statutory public meeting

# Bill 108: *More Homes, More Choice Act, 2019*

- Received Royal Assent on June 6<sup>th</sup> 2019
- Proposed changes to the *Development Charges Act, 1997* (DCA) and DC Regulations
  - Exempting secondary suites from DCs in new construction
  - DC rates payable at different times
  - Soft DC services to be collected through a Community Benefits By-law
- DCA Regulations still to be released

# 1. Secondary Suites

- **Current:** DC exemption if second unit is created in existing dwelling
- DCs only charged if second unit is declared at building permit application – this is a problem
- **Proposed:** Secondary suites in new units would be exempt from DCs at the onset of the permit application
- Restrictions and details on eligible classes of residential buildings will be set out in the Regulations

## 2. Timing of Payment

- **Current:** DCs generally paid for at the time of first building permit (subject to any agreements)
- **Proposed:** commercial, industrial, institutional and rental housing developments *shall* pay DCs in 6 equal annual payments
  - non-profit housing will be 21 installments
- Payments to start on either the *day of first occupancy* or the day an *occupancy permit* is issued – some municipalities will have to start tracking this
- Municipalities cannot index these payments but may apply interest, up to a prescribed rate

### 3. When DC Rates are Determined

- **Current:** DCs payable are generally determined at issuance of first building permit
- **Proposed:** DC amount would be “frozen”:
  - on the date of application for site plan or rezoning
  - if no such applications DC amount payable remains set at permit issuance
  - timing of payment is still building permit issuance (except for rental/non-profits and non-res)
- Regulations may prescribe a maximum time period between site plan/zoning application and building permit issuance

# Services Previously Eligible for Recovery

## 100% Cost Recovery

- Protection Services
  - Fire Services
  - Police Services
- Services Related to a Highway
  - Roads & Related
  - Public Works
- Engineered Services
  - Water
  - Sanitary Sewage
  - Stormwater
- Transit Services

## 90% Cost Recovery

- Library
- Parks and Trails
- Indoor Recreation
- Parking
- Waste Diversion
- Child Care
- Housing
- Ambulance
- Other

# Proposed Services Eligible for Recovery

- Only hard (i.e. 100% cost recovery) services will remain under the *DC Act* authority
- Waste Diversion and Ambulance would move from 90% recovery service to 100% and will remain eligible
- “Soft” services have been entirely removed from the *DC Act* framework
- New authority proposed under *Planning Act* would allow municipalities to charge for community benefits such as libraries and recreation
  - Community Benefits Charge (CBC) essentially becomes vehicle for funding soft services growth-related infrastructure

# Transition Provision under Bill 108

- Two options for Council
  1. Continue collection of “discounted” services as per existing by-law
  2. Calculate new rates for the “discounted” services and complete the background information required to support them
- The City will have the authority to levy DCs for discounted services until the earlier of the prescribed date or a CBC by-law is in force

# Community Benefits Charges

- CBCs to be imposed by by-law under new s.37 of the Planning Act
  - CBCs replace soft services DCs, old s.37 contributions (“density bonusing”) and s.42 parkland dedication
- CBCs will be used to fund growth-related capital costs for services other than the hard services funded through DCs
  - Other ineligible services are to be prescribed
- No mandatory public consultation – but legislation implies that it must be considered
- No right of appeal

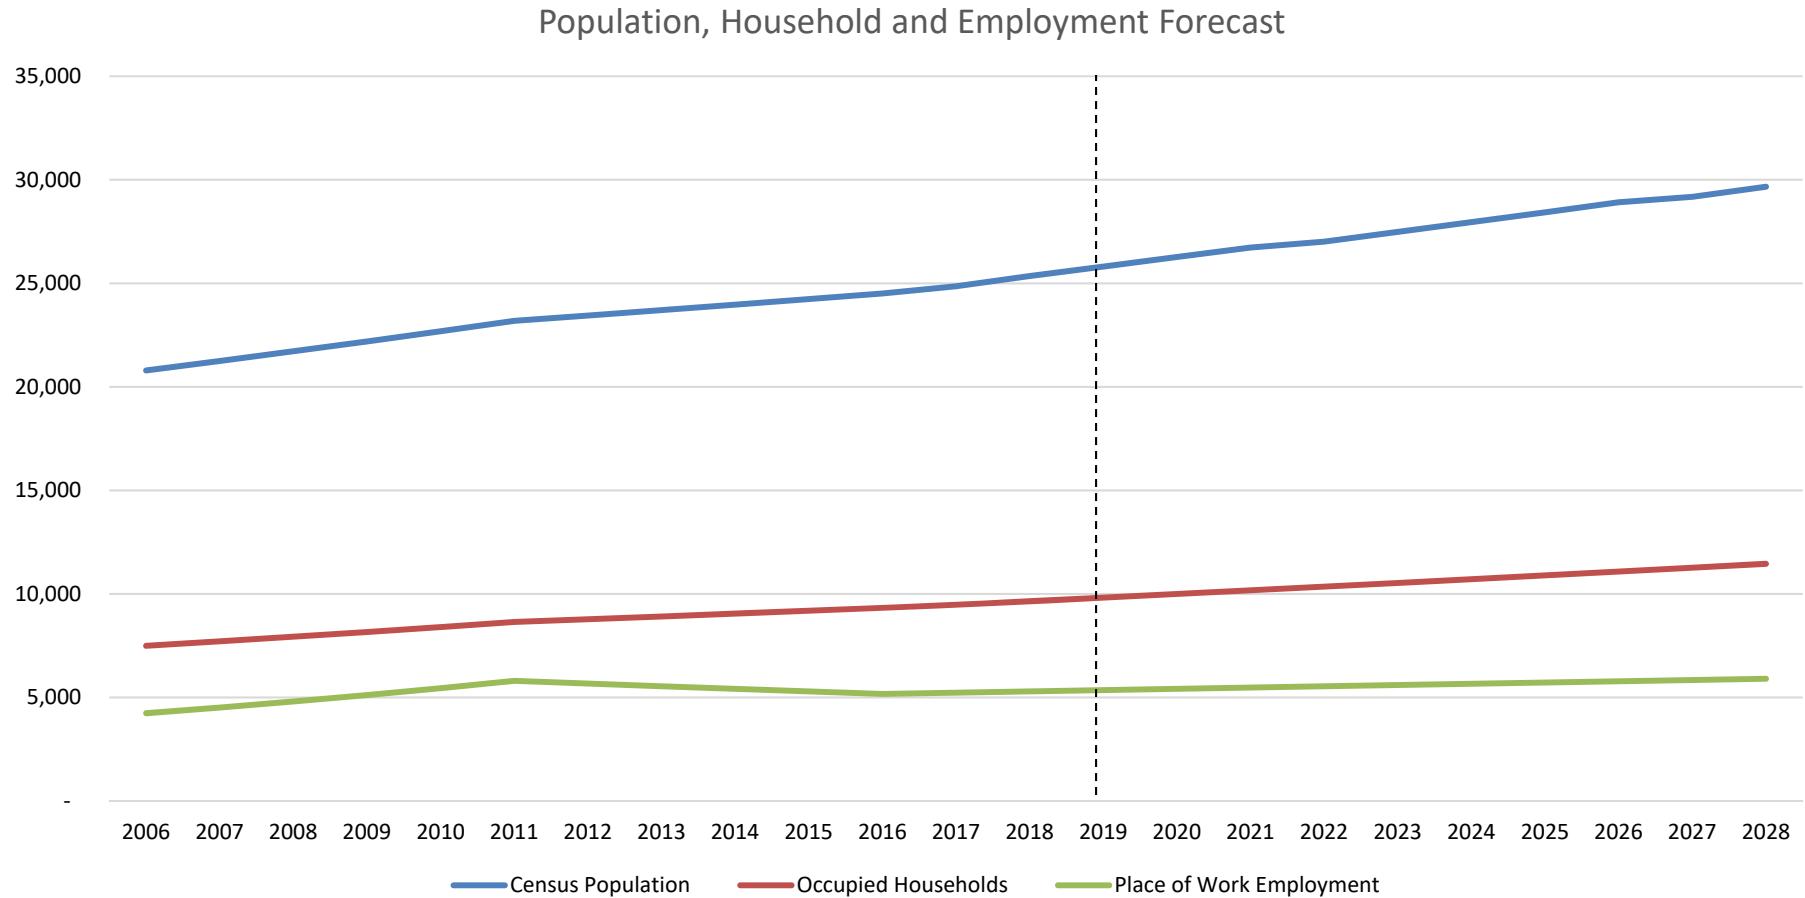

# Development Forecast

- Historical service levels based on:
  - 2009 to 2018
- Capital planning periods:
  - All Services                    2019 – 2028
- 10-year and build-out unit forecast based on information provided by Planning staff

# Forecast Summary

<b>City-wide Development Forecast</b>	<b>2018 Estimate</b>	<b>10-Year 2019 - 2028</b>	
		<b>Growth</b>	<b>Total at 2028</b>
<b>Residential</b>			
Total Occupied Dwellings	9,600	1,900	11,500
Total Population Census *	25,400	4,300	29,700
<i>Population In New Dwellings</i>		4,500	
<b>Non-Residential</b>			
Employment	5,300	600	5,900
Non-Residential Building Space (sq.m.)		30,500	

# Development Forecast

Note 1: Population shown reflects the "Census" population which does not include the Census net under-coverage, which represents those who were missed by the Census.

Note 2: Place of Work Employment excludes work at home

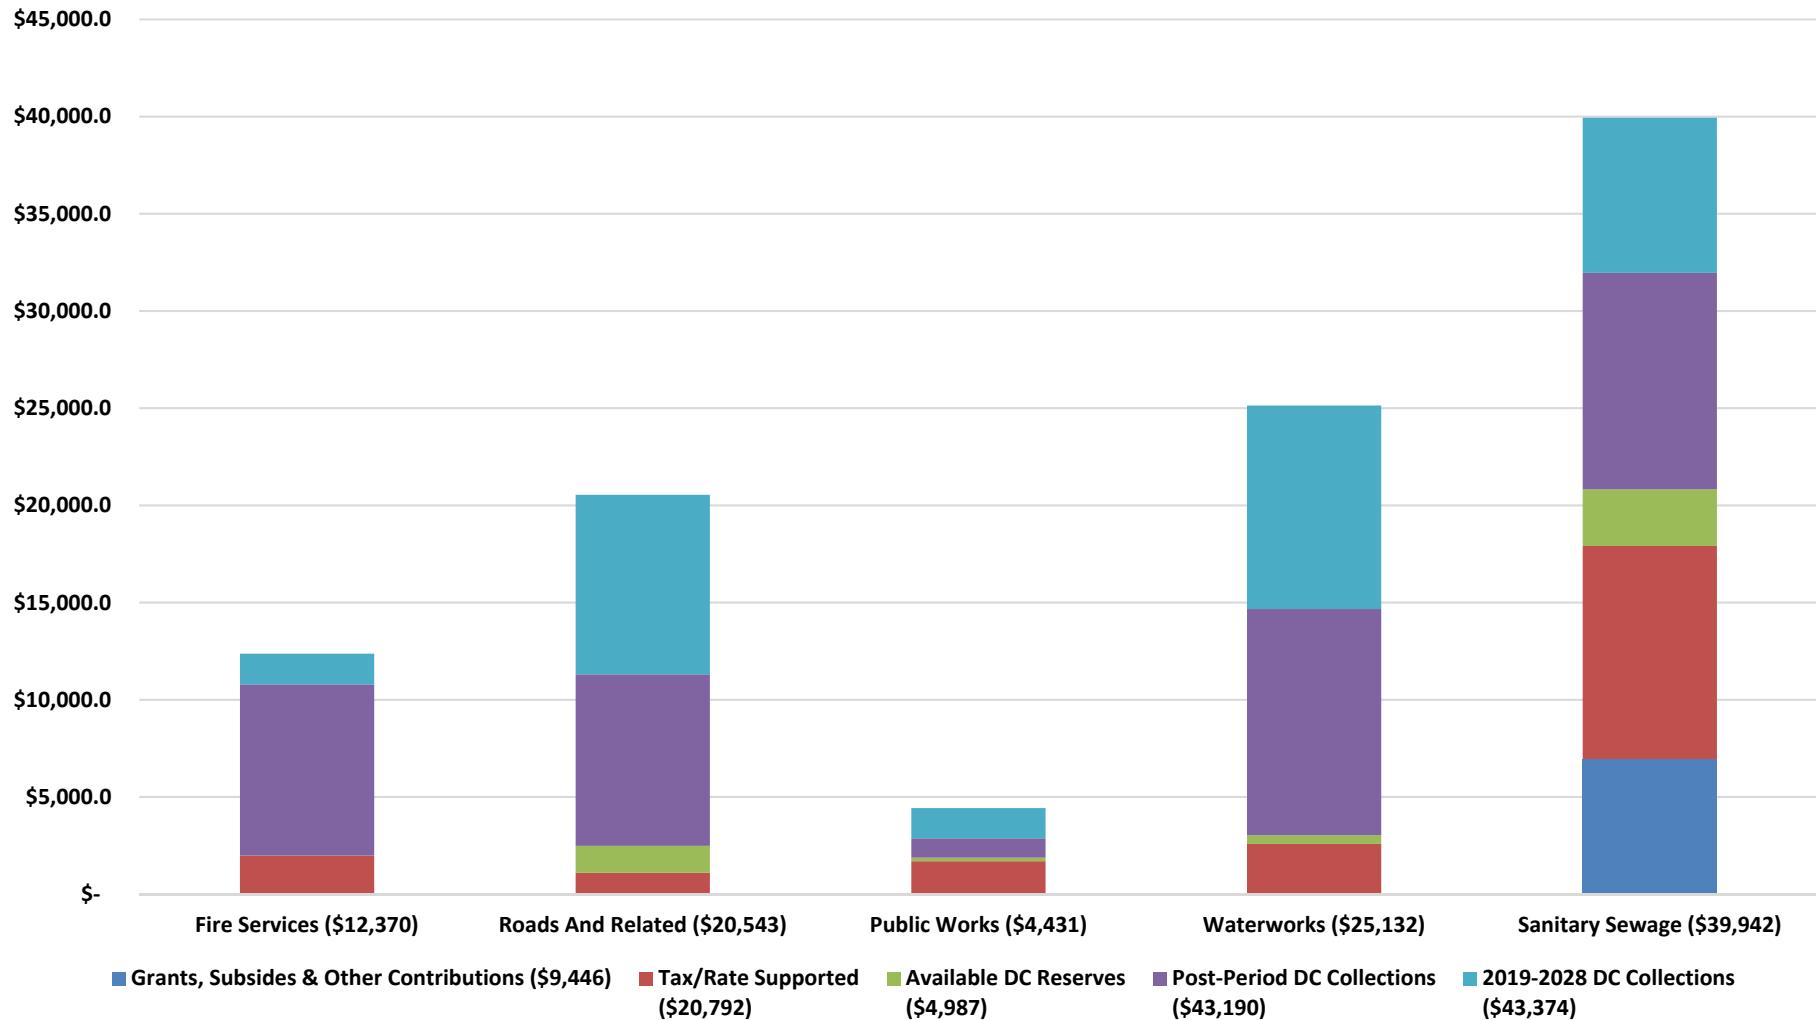

# Maximum Permissible Funding Envelope

- Maximum allowable charge for soft services based on average service levels provided in preceding 10 years (2009-2018)
- Calculated by multiplying 10-year historical service level by the forecast growth in 10-year planning period
- Establishes a development charges ceiling

# Development-Related Capital Programs

- Capital programs have been compiled in consultation with City staff
- Capital costs have been adjusted in accordance with DC legislation:
  - Capital grants & subsidies
  - Replacement/benefit to existing shares
  - 10% legislated discount for “soft services”
  - Available DC reserve funds
  - Post period benefit shares

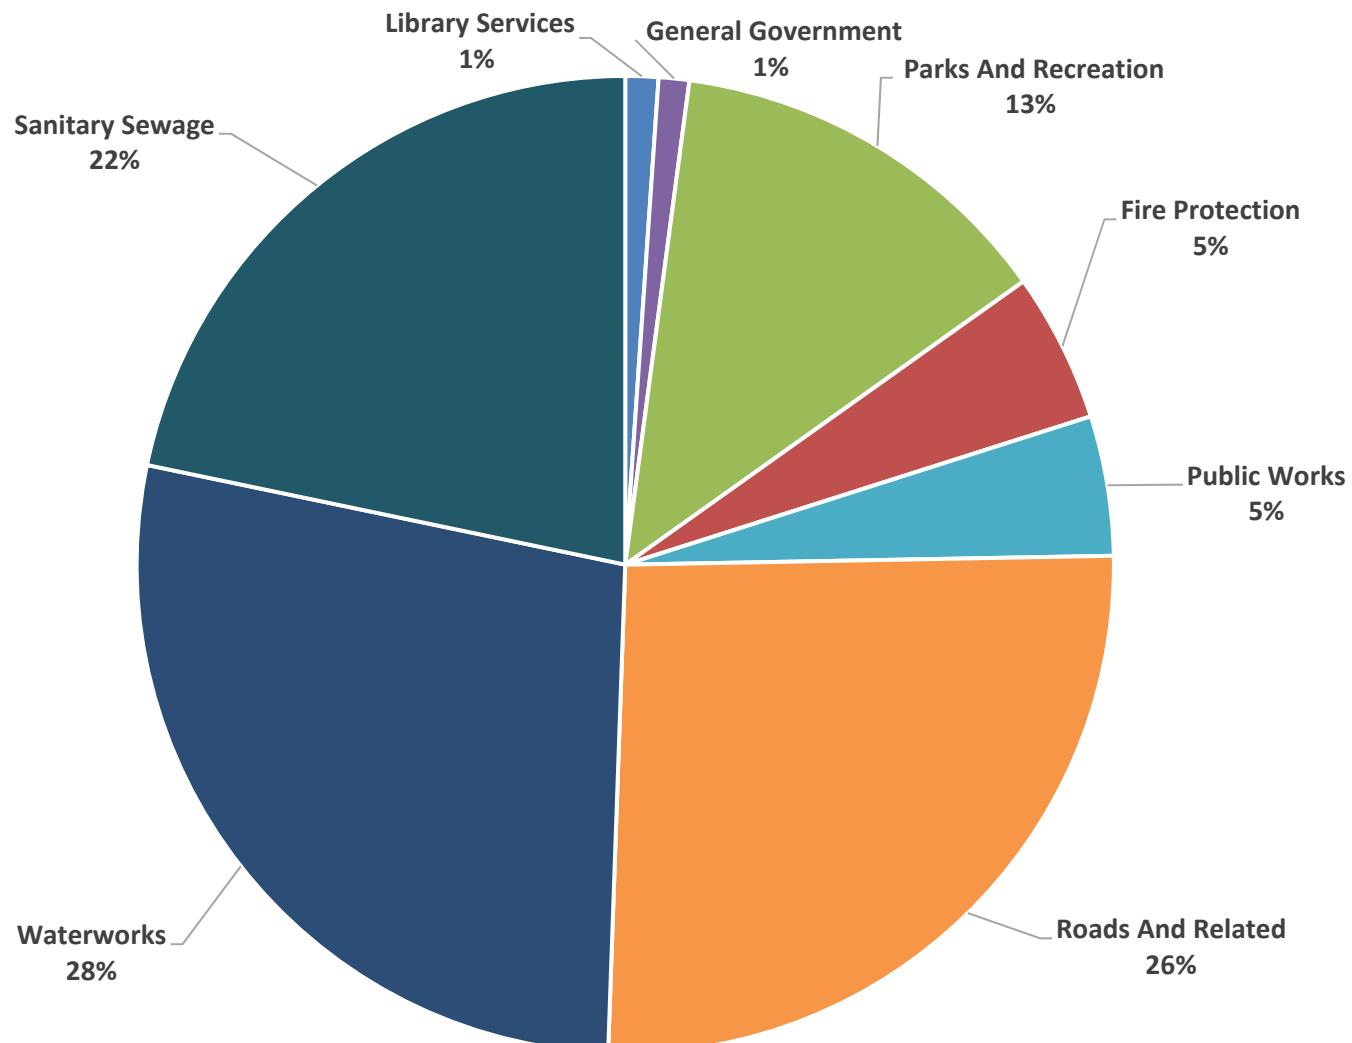

# Gross Program Cost = \$102.4 Million

Note: Summary of Capital Program only relates to non-discounted services considered under this study

**HEMSON**

# Calculated Maximum Allowable City-wide Residential DC Rate (Urban)

Residential Charges / Unit

# Next Steps

- **July/August** - development industry consultations
- **August/September** – Draft Background Study
- Advertise for statutory public meeting
- **September/October** - Hold statutory public meeting
- **October/November** - Council consideration of DC By-law

## RAPPORT N° FIN2019-017

<b>Date</b>	03/06/2019
<b>Soumis par</b>	Frédéric Desnoyers
<b>Objet</b>	Statut des arrérages de taxes
<b># du dossier</b>	F22 Tax Roll and Records

### 1) **NATURE / OBJECTIF :**

Le but de ce rapport est de présenté le statut des arrérages de taxes et de présenter les options relativement à 2 propriété non vendu lors de la vente de taxes.

### 2) **DIRECTIVE/POLITIQUE ANTÉCÉDENTE :**

Le règlement 2019-10 a été adopté le 4 février 2019, pour établir la politique d'administration des taxes

### 3) **RECOMMANDATION DU SERVICE:**

**ATTENDU QUE** suite à la vente de taxes qui a eu lieu le 6 avril, deux (2) propriétés n'ont pas été vendus;

**QUE** le Comité plénier recommande au Conseil d'autoriser l'administration à poursuivre avec l'option 1a) et b) tel que décrit au Rapport no. FIN2019-017, qui permettrait un temps d'affichage plus long, avec une agence immobilière.

**WHEREAS** further to the tax sale which was executed on April 6, two (2) properties remain unsold;

**THAT** the Committee of Whole recommends that Council authorize the administration to pursue with options 1a) and b) as outlined in Report No. FIN2019-017, which would allow the properties to be advertised on a longer period, with a real estate agency.

### 4) **HISTORIQUE :**

Au courant des dernières année, Clarence-Rockland avait une politique de « laissez-faire » concernant la collection des taxes, qui incluait l'envoie de lettre de retard, des réunions et arrangements avec les gens en retard. Par conséquent, le processus de vente de taxes n'a jamais été entrepris, ainsi menant les arrérages de taxes à 3,6 \$ millions à la fin 2016.

Ainsi en 2017, une nouvelle politique d'administration des taxes a été acceptée afin de permettre le processus de vente de taxes.

5) **DISCUSSION :**

En 2017, 11 certificat d'arrérages de taxes ont été inscrits. De ce montant, 3 propriétés ont été payés en entier et 2 ont pris un arrangement avec la municipalité.

Ainsi, 6 propriétés était à vendre le 16 avril 2019.

Parmi les 6 propriétés à vendre, 4 de ceux-ci ont été vendus, aucune soumission n'a été reçue pour les 2 autres.

Les 2 propriétés non vendus sont des propriétés commerciales le 1695 rue Landry à Clarence-Creek (89 500 \$) et le 2767 rue St-Pascal à St-Pascal (66 500 \$). La municipalité doit se pencher afin d'établir un plan d'action pour les 2 propriétés, 3 options sont envisageables.

Il est dans l'intérêt pour la municipalité d'opter pour un plan d'action afin d'améliorer certains problèmes avec ces propriétés tel que l'entretien extérieur de ceux-ci.

Il est a noté qu'il s'agit d'anomalies, étant donné qu'aucune vente de taxe n'a été effectuée dans les derniers 15 ans et plus, le montant d'arrérages accumulés sur ces propriétés est très élevé. Maintenant que des ventes de taxes sont effectués à chaque année, le montant d'arrérages accumulé sur les propriétés devrait être plus bas ainsi diminuant le prix minimum des enchères.

**Option 1 : Vente de taxes**

La municipalité peut décider de réafficher les propriétés une seconde fois pour tenter de les vendre. La municipalité a un délai de 2 ans pour réafficher les propriétés, sans redevoir passer par le processus complet. Voici quelques sous options qui pourraient être effectués afin d'améliorer les possibilités de la vente :

*a) Augmenter le temps d'affichage*

Le temps d'affichage pourrait être augmenté en espérant améliorer la visibilité. Lors du dernier processus, les propriétés ont seulement été affichés pour la durée d'un mois.

*b) Entente avec une agence immobilière*

La municipalité pourrait avoir une entente avec une agence immobilière. Ceci pourrait augmenter la visibilité des propriétés à vendre. De plus, les agences immobilières ont habituellement un grand réseau de contacts dans le domaine. Cette option a un coût approximatif de \$5 000 par propriété, cependant ce montant peut être ajouté à la valeur à récupérer sur les propriétés.

*c) Étude environnementale*

Des tests de sol pourraient être effectués afin de rendre disponible aux acheteurs potentiels. L'utilisation passée des propriétés laisse croire qu'il pourrait y avoir un risque de contamination. Ainsi en ayant effectué des tests de sols, la condition des propriétés pourrait être confirmées. Toutefois, si les résultats des tests reviennent avec un haut niveau de contamination, ceci pourrait réduire les chances de la vente. Une telle étude aurait un coût approximatif de 22 000 \$ par propriété. Le coût de cette étude pourrait être ajouté au montant à recevoir par propriété, toutefois il pourrait aussi décourager des acheteurs potentiels.

*d) Diminution du montant minimum des enchères*

Le Conseil a l'option de diminuer le montant minimum des enchères en comptabilisant une perte sur les montants à recevoir. Ainsi, il est possible que plus d'acheteurs soient intéressés par les propriétés si le prix des enchères est moins élevé qu'à la dernière vente de taxes. Toutefois, si le Conseil veut opter pour cette option, une source de financement doit être trouvée afin de comptabiliser la perte.

Option 2 : Acquisition

La municipalité pourrait décider d'acquérir les propriétés. Le montant de taxes à recevoir serait alors transféré à titre de coût/valeur pour ses propriétés. Toutefois, quelques étapes devront obligatoirement être effectuées en vertu des normes comptables. Une évaluation de la propriété devra être effectuée pour déterminer la valeur marchande et ainsi ajuster le coût de la propriété. Une étude environnementale devra être effectuée afin de déterminer s'il y a contamination. Dans le cas d'une contamination, un passif devra être comptabilisé. Ainsi, la municipalité pourrait accumuler plusieurs coûts. Ces coûts dépendront du degré de contamination ainsi que de la valeur marchande déterminée pour les propriétés.

Option 3 : Ne rien faire

La municipalité pourrait décider de ne rien faire en espérant récupérer la somme de taxes dû éventuellement. Au total, pour les 2 propriétés, il y a une somme dû de 156 000 \$, puisque la probabilité de récupérer ce montant est faible, il sera recommandé de provisionner de montant ainsi coutant à la municipalité 156 000 \$.

Recommandation :

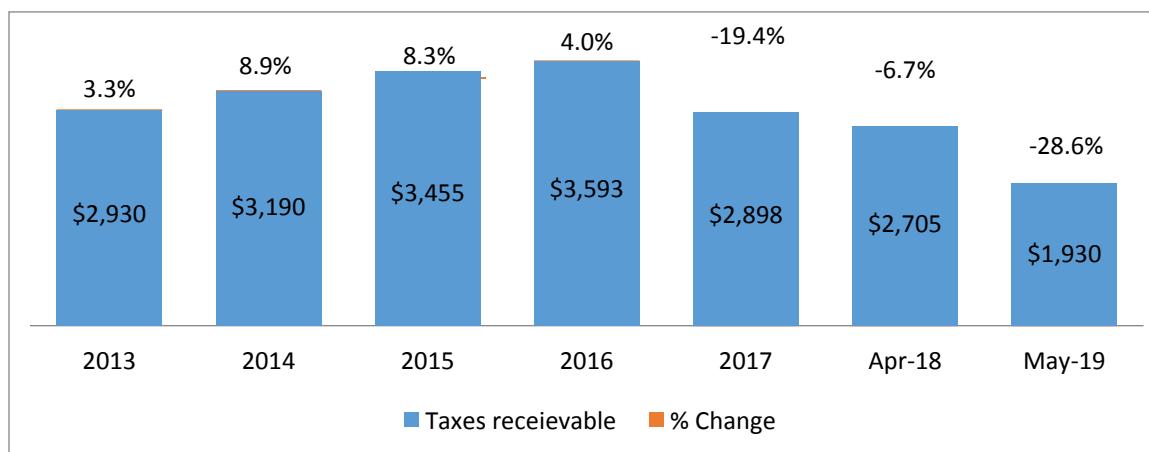

L'option avec le moins de risque financiers serait d'opter pour essayer de revendre la propriété (Option 1) tout en allongeant la durée d'affichage (b) et en faisant une entente avec une agence

immobilière pour augmenter la visibilité.

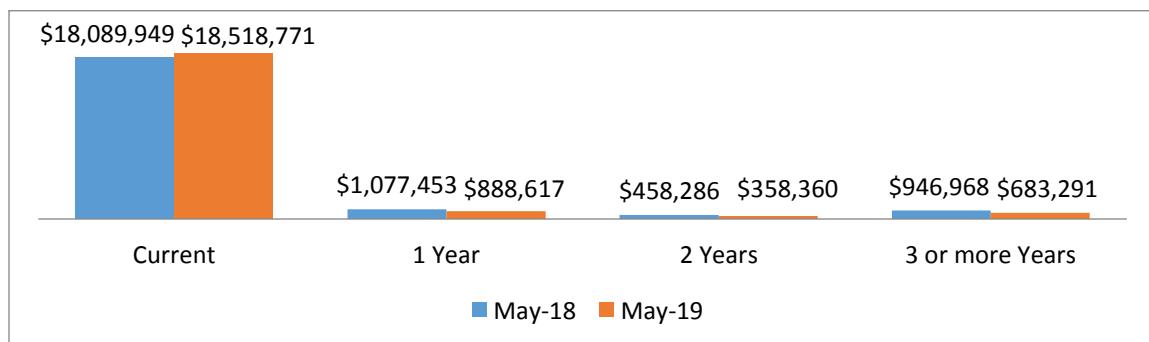

### **Où sont les arrérages de taxes aujourd’hui ?**

Le tableau 1 ci-dessous démontre les comparaisons depuis 2013 des taxes recevables. Le montant maximum était à la fin 2016, au montant de 3,6 \$ million, en date du 24 avril, les arrérages sont maintenant à 1,93 \$ million, soit une amélioration de 42 %.

**Tableau 1 – Taxes recevables de plus d’un an (000’s)**

**Tableau 2 – Taxes recevables**

Un autre 5 propriétés pour lesquels un certificat de taxes a été inscrits seront mise en vente au mois d’août 2019.

## REPORT N° INF2019-025

<b>Date</b>	10/06/2019
<b>Submitted by</b>	Julian Lenhart
<b>Subject</b>	Laurier Street Revitalization Update
<b>File N°</b>	

### 1) **NATURE/GOAL :**

The Nature of this report is to update Council on the status of the Laurier Street Revitalization project.

### 2) **DIRECTIVE/PREVIOUS POLICY :**

In August of 2018, Council approved report AMÉ-18-48-R- Revitalization of Laurier Street-Design and By-Law 2018-81 to sign an agreement with CSW.

### 3) **DEPARTMENT'S RECOMMENDATION :**

**THAT** Report no. INF2019-025, which provides an update on the Laurier Street Revitalization Project, be received as information.

**QUE** le rapport no. INF2019-025, qui vise à faire une mise à jour du projet de revitalisation de la rue Laurier, soit reçu à titre d'information.

### 4) **BACKGROUND :**

The revitalization of Laurier Street was identified as a top priority in both the City's Strategic Plan and in its Asset Management Program. Additionally, the City's Official Plan (2014) identifies Laurier Street as a Commercial Core Area and the Counties of Prescott Russell has identified it as a County Recommended Cycling/Tourist area. This project strategically aims at improving the health and safety of motorized and active transportation, beautifying the City's main street, improving accessibility to existing businesses and attracting new businesses.

The Active Transportation Master Plan (2019) has highlighted the community concerns of speeding/dangerous conditions for cycling and pedestrians, especially along main routes, including Laurier Street, with high traffic volumes. Augmenting this, there are projections for a 36% increase in population, intensifying the potential of conflict between the cyclists, pedestrians and motorists. Below, are the major safety concerns that this project intends to address in order to achieve the community's desired outcomes;

- No existing cycling facilities, therefore higher risk for potential accidents and collisions between cyclists and vehicles;

- Increased volumes of traffic with the on-going community expansion will further increase potential conflicts;

In order to address the safety concerns mentioned above, the City has submitted a \$2,750,000 grant application, on May 14, 2019, under the ICIP Road stream for Rural and Northern communities. The Province communicated with the City regarding our funding request and has informed us that our application is in the process of being reviewed.

## 5) **DISCUSSION :**

This project is the strategic implementation of the Strategic Plan and the first of the Active Transportation Master Plan. This project will generate the first distinct cycling facility, 1.8 km in length, within the Municipality on Laurier Street, the city's mainstreet. Encouraging Active Transportation and increasing the opportunities for the community to support the shops, services and institutional facilities within the project limits. The cycling facility will provide a key link to the County Recommended Cycling Route.

The following improvements will enhance the street, sidewalks, lighting, benches to ensure accessibility and foster a healthy vibrant economy for area businesses, cyclists and pedestrians. The preliminary design of this project is included in Attachment 1.

- Provide a separate cycling facility within the right of way.,
- Enhances the downtown by providing a Complete Street,
- Reinforces the sense of place, with wider and consistent sidewalks to accommodate Universal Accessibility needs,
- Connect the civic and public spaces with Active Transportation
- Traffic calming measures, including traffic bulb-outs to reduce the speed of the vehicle,
- Street lighting to enhance the pedestrian visibility to the vehicular driver.

### Next Steps (assuming grant funding)

- 2019 - Traffic Study;
- 2019 - Lighting Study;
- 2020 - Final design, tender and EA;
- 2021 – Construction lighting enhancement;
- 2021 – Construction rehabilitation of pavement and delineation of on-road cycling facility for 1.5 km;
- 2023 - Intersection improvement and land acquisition
- 2024 - Construction of segregated cycling and pedestrian facility for 350 m;
- 2025 – Project end

- 6) **CONSULTATION:**

## RAPPORT N° FIN2019-023

<b>Date</b>	07/06/2019
<b>Soumis par</b>	Frédéric Desnoyers & Yves Rousselle
<b>Objet</b>	Contracts awarded over \$50,000
<b># du dossier</b>	F18 Quotations and tenders

### 1) **NATURE / OBJECTIF :**

Le but de ce rapport est de présenter les contrats ayant été octroyés supérieurs à 50 000 \$, depuis la modification de la politique d'achat le 15 avril 2019

### 2) **DIRECTIVE/POLITIQUE ANTÉCÉDENTE :**

Le 15 avril 2019, la politique d'achat 2019-41 a été entérinée par le Conseil.

### 3) **RECOMMANDATION DU SERVICE :**

**QUE** le rapport FIN2019-023 qui vise à présenter la liste des contrats supérieurs à 50 000 \$ ayant été octroyés par l'administration pour la période du 15 avril au 31 mai 2019, soit reçu à titre d'information.

**THAT** report FIN2019-023 which serves to present a list of contracts over \$50,000 awarded by the administration for the period from April 15 to May 31, 2019, be received as information.

### 4) **HISTORIQUE :**

Le 15 avril 2019, la politique d'achat 2019-41 fut entérinée par le Conseil. Parmi les changements majeurs, les directeurs de département et la directrice générale sont maintenant autorisés à octroyer des contrats supérieurs à 50 000\$ advenant que certaines conditions soient respectées.

### 5) **DISCUSSION :**

La politique d'achat 2019-41 prévoit que l'administration présente un rapport semi-annuel afin de présenter les contrats octroyés supérieurs à 50 000\$

L'annexe A présente cette information pour la période du 15 avril 2019 au 31 mai 2019. Il est à noter que la différence entre le budget et le contrat octroyé ne représente pas nécessairement l'économie sur les projets. Il faut prendre compte de la contingence et de la possibilité qu'il y est d'autres contrats sur le même projet.

Le prochain rapport sera présenté le 16 décembre 2019.

### 6) **CONSULTATION :**

## REPORT N° AMÉ-19-55-R

<b>Date</b>	17/06/2019
<b>Submitted by</b>	Marie-Eve Bélanger
<b>Subject</b>	Floodplain regulations in regards to building permits
<b>File N°</b>	n/a

### 1) **NATURE/GOAL :**

The nature of this report is to advise Council of the policies surrounding renovations or reconstruction of a house located within a floodplain overlay under the Zoning By-law.

### 2) **DIRECTIVE/PREVIOUS POLICY :**

n/a

### 3) **DEPARTMENT'S RECOMMENDATION :**

**THAT** Report No. AMÉ-19-44-R, which outlines the policies surrounding renovations or reconstruction of a house located within a floodplain overlay under the Zoning By-law, be received as information.

**QUE** le rapport no. AMÉ-19-44-R, qui souligne les politiques applicables pour des rénovations ou reconstruction d'une maison située sur une plaine inondable relativement au règlement de zonage, soit reçu à titre d'information.

### 4) **BACKGROUND :**

Floods are the most commonly occurring natural hazard in Canada. Mitigating flood risks is key to increase resilience of our affected community. Land use planning will play an important role and is a strong tool in managing and restricting development in areas of flood hazard.

In Clarence-Rockland, we have various legislative and policy instruments that come into play, such as; the Provincial Policy Statement, the United Counties Official Plan, the City of Clarence-Rockland's Official Plan and the Zoning By-law. These documents all provide long-term flood mitigation through development restrictions.

The City has flood plain maps that dates back to the 1980's. The areas known to be subject to the 1 in 100 year flood events are the ones that are currently mapped. While it is important to note that we do have floodplain mapping, some areas might not be accurate.

### 5) **DISCUSSION :**

The Infrastructure and Planning Department has received multiple phone calls from residents affected by the 2019 flooding. The majority of the property owners are hoping to raise their houses higher than the 1:100 year flood elevation while some request to demolish and rebuild.

The Department needs to evaluate each request on a case-by-case basis. There are many policies involved when considering each request. The Official Plans offer policies in regards to repairs and minor additions to existing buildings as well as Development and Site Alterations in the flood plain.

Firstly, we need to consider the Zoning By-law. Under the Zoning, we have provisions for a property that is included under the flood plain overlay. It is indicated that the provisions of the flood plain overlay will take precedence over the provisions of the underlying zone. For example, if a property is zoned R1-FP, it means that the zone is R1 and that there is a flood plain overlay (-FP). A list of permitted uses is included under the flood plain overlay and are as follows:

- Agricultural use, excluding buildings;
  - Conservation use, excluding buildings;
  - Flood or erosion control works;
  - Forestry operation, excluding buildings;
  - Marine facility;
  - Park;
  - Marina;
  - Golf course, excluding buildings;
  - Parking lot;
  - Public infrastructure, excluding stormwater management facility.
- As such, residential uses are not permitted under a floodplain overlay.

There are also provisions in the By-law in regards to the repairs and minor additions of existing buildings or structures:

- Repairs and minor additions to existing buildings or structures are permitted, provided that all new works are undertaken using appropriate flood proofing measures, and
- Minor additions to existing buildings or structures shall comply to the Official Plans.

The Zoning By-law also stipulates that the 1:100 year flood elevation along the Ottawa River is the 45.1 metre contour.

Secondly, the Official Plans provide policies similar to the Zoning by-law, in regards to the permitted uses in the floodplain. The Official Plan policies of the Clarence-Rockland OP does mention that development and site alterations are not permitted under the flood plain development constraint. However, under certain circumstances, development can be approved. There are also some possibilities to do some minor renovations and minor additions to existing buildings

within those policies. As we are dealing with renovations and reconstruction of legal non-conforming buildings, the provisions of the Zoning by-law will be the primary focus. The provisions of the OPs will be followed if a new building on a new lot is built. The Department will still do its best to implement the policies of the OP as much as we can.

The Department wants to advise Council of the steps that the Department will take for different types of permit applications in the flood plain. Here are some examples:

#### Example 1: Raising a house

Raising a home's foundation will be considered a repair, as indicated in the Zoning by-law's Flood plain overlay provision. As mentioned previously, repairs are permitted in the flood plain as long as appropriate flood proofing measures are undertaken. The Zoning by-law does not provide a definition of "appropriate flood proofing measures", and consequently makes it difficult for staff to assess. However, we understand that the 1:100 year floodplain is at 45.1 metres along the Ottawa river. We have been recommending that residents who wish to raise their houses or cottages should do so while respecting the 45.1 metre elevation. Therefore, no openings in the house should be below that threshold. In addition, we will require that a Professional Engineer stamp the design for the proposed renovation. The majority of the property owners that we met agree with the elevation and want to ensure that their property is safe if another flood event would occur.

However, in some cases, reaching a 45.1 m elevation might not be feasible especially where the land and access is very low. In this case, we will request that the owner's Engineer provide us with a design that indicates how they can achieve appropriate floodproofing.

The Department will also be looking for residents to try to achieve a safe access, as per the Official Plan policies. Having a safe access means that any driveway or road (private or public) is not more than 30 cm below the flood plain elevation. The goal is to maintain access in case of another emergency.

#### Example 2: Rebuilding

Property owners are allowed to rebuild their homes in the flood plain, however, some restrictions apply. The house will need to be rebuilt on the same footprint, since it is a legal non-conforming use. Being legal non-conforming means that the house was legal (building permit was issued) but is no longer conforming to the provisions of the Zoning by-law. Since residential uses are not permitted under the flood plain overlay, the new home cannot further increase the extent or degree of

non-conformity. The newly built house will need to have openings only above the 45.1 metre elevation and will need to be floodproofed, in accordance with design plans certified by a Professional Engineer.

Any changes in the footprint of the house will require a minor variance, as the extent of non-conformity is increasing.

Safe access is also important and we will take the same approach as for Example 1.

**Example 3: New construction on a vacant lot**

A new building permit for a house on a vacant lot will only be issued if the following is respected:

- Safe access to the house (driveway or road is more than 30 cm below the flood plain elevation)
- No openings are below the 45.1 m elevation.
- Floodproofing is reached.
- All other provisions of the Official Plans are respected.

**6) CONSULTATION:**

The Department has consulted with South Nation Conservation, the United Counties of Prescott and Russell, the Town of Whitewater and the City's solicitor to name a few.

**7) RECOMMENDATIONS OR COMMENTS FROM COMMITTEE/ OTHER DEPARTMENTS :**

n/a

**8) FINANCIAL IMPACT (expenses/material/etc.):**

n/a

**9) LEGAL IMPLICATIONS :**

n/a

**10) RISK MANAGEMENT :**

The Department will evaluate each situation as a case-by-case basis and we will recommend the best approach to minimize risk for the residents and the City.

**11) STRATEGIC IMPLICATIONS :**

**12) SUPPORTING DOCUMENTS:**

n/a

## REPORT N° AMÉ-19-54-R

<b>Date</b>	17/06/2019
<b>Submitted by</b>	Marie-Eve Bélanger
<b>Subject</b>	Assumption of Charrons Street – Succession Laviolette
<b>File N°</b>	D-12-P-15

### 1) **NATURE/GOAL :**

To assume the project of Phase 8 of the Succession Laviolette Subdivision, Plan 50M-292.

### 2) **DIRECTIVE/PREVIOUS POLICY :**

N/A

### 3) **DEPARTMENT'S RECOMMENDATION :**

**THAT** the Committee of the Whole recommends that Council approve the Assumption By-law 2019-62 for the Phase 8 Laviolette Subdivision (plan 50M-292) being Charron Street in Rockland.

**QUE** le comité plénier recommande au conseil d'approuver le règlement 2019-62 pour assumer la Subdivision Laviolette – Phase 8 (plan 50M-292), soit la rue Charron à Rockland.

### 4) **BACKGROUND :**

On May 28<sup>th</sup>, 2019, the letter of credit was released to the Succession Laviolette since their work was completed as per the Subdivision Agreement's plans.

### 5) **DISCUSSION :**

In the Subdivision Agreement, it is the Owner's responsibility to maintain and repair a road and any infrastructure until the City is completely satisfied that the works have been completed to the municipality's specifications and requirements. If a dispute arises between a builder/developer regarding the works done, then the municipality can use an assumption by-law to limit its exposure and avoid legal undertakings.

All works have been completed and the securities have been released for the Phase 8 Laviolette Subdivision. The Infrastructure and Planning Department is in a position to recommend to Council that "rue Charron Street, Plan 50M-292" be assumed along with all the works associated with this project.

### 6) **PUBLIC MEETING:**

N/A

- 7) **RECOMMENDATIONS OR COMMENTS FROM COMMITTEE/ OTHER DEPARTMENTS :**  
N/A
- 8) **FINANCIAL IMPACT (expenses/material/etc.):**  
The City will now be responsible to maintain the works for this Subdivision and repair any damage or breaks from now on.
- 9) **LEGAL IMPLICATIONS :**  
The City will now assume the road and all works related to the project.
- 10) **RISK MANAGEMENT :**  
If there were a dispute between a builder/developer regarding the works to be done and no assumption by-law were in place, then the municipality would be exposed to legal undertakings. By approving this assumption by-law, Council limits the Corporation's exposure to any legal undertaking. Essentially, the practice of passing an assumption by-law is good protection for the municipality.
- 11) **STRATEGIC IMPLICATIONS :**  
N/A
- 12) **SUPPORTING DOCUMENTS:**  
Plan 50M-292  
By-law 2019-62

# **THE CORPORATION OF THE CITY OF CLARENCE-ROCKLAND**

## **BY-LAW NO. 2019-62**

*Being a By-law to Assume a Highway for Public Use*

**WHEREAS** pursuant to Section 31(4) of the *Municipal Act, 2001* (the "Act"), a municipality may pass a by-law to assume a road allowance, highway, street or lane shown on a registered plan of subdivision for public use;

**AND WHEREAS** pursuant to Section 31(4) of the Act, a municipality's obligations under section 44 of the Act do not apply to a highway until the municipality has passed a by-law pursuant to Section 31(4);

**AND WHEREAS** it is deemed prudent to accept and assume lands described as Charron Street, plan 50M-292 and forming part of this by-law as a highway for public use pursuant to Section 31 of the Act;

**NOW THEREFORE** the Council of the Corporation of the City of Clarence-Rockland enacts the following:

1. That "Charron Street described as Part of Lot 28, Concession 1 (O.S.), Plan 50M-292", being Phase 8, be assumed for public use.

**READ, PASSED AND ADOPTED BY COUNCIL, THIS 17<sup>TH</sup> DAY OF JUNE, 2019.**

## RAPPORT N° FIN2019-022

<b>Date</b>	27/05/2019
<b>Soumis par</b>	Frédéric Desnoyers & Yves Rousselle
<b>Objet</b>	Offres de service d'ingénierie
<b># du dossier</b>	F18 Quotations and Tenders

### 1) **NATURE / OBJECTIF :**

Le rapport a pour but d'obtenir des services d'ingénierie pour des domaines d'expertises spécifiques, le tout pour des travaux de moins de 50 000\$. Cette liste sera valide pour une durée de 3ans avec une option de renouvellement de deux (2) fois un (1) an chacun.

### 2) **DIRECTIVE/POLITIQUE ANTÉCÉDENTE :**

La résolution 2015-033 avait pour but d'accepter une liste d'offres de services d'ingénierie pour une période de 2 ans, renouvelé avec 2 années supplémentaires et par conséquent est échu depuis janvier 2019.

### 3) **RECOMMANDATION DU SERVICE :**

**Q'IL SOIT RÉSOLU** que le conseil recommande au conseil municipal d'adopter un Règlement, visant à établir une liste qui priorise les offres de service des firmes d'ingénieurs retenues pour leurs services professionnels, tel que recommandé.

**BE IT RESOLVED** that the Committee of the Whole recommends that Council adopts a by-Law to establish a prioritized standing offers list of engineering firms retained for their professional services, as recommended.

### 4) **HISTORIQUE :**

Les départements avaient anciennement une liste approuvée pour des services des firmes d'ingénieries, toutefois, celle-ci a expiré en début d'année. Depuis ce temps, les départements doivent obtenir 3 cotations pour chaque service d'ingénierie désiré.

La politique d'achat FIN2019-041 approuvé le 15 avril 2019 permet d'avoir une liste pré approuvée d'offres de services pour les achats de moins de \$50,000.

### 5) **DISCUSSION :**

La municipalité a souvent recours à des services d'ingénierie pour divers projets. Lorsque celle-ci a une liste d'offre de services, les

départements peuvent contacter les firmes directement, sans avoir à passer par le processus traditionnel de 3 cotations, puisque les services et prix sont déjà définis.

L'offre de services d'ingénierie incluait les services suivants :

CATÉGORIE	SERVICES
A	Ingénierie municipale
B	Planification des transports et ingénierie de la circulation
C	Ingénierie des ressources en eau, hydrologie de surface et gestion des eaux pluviales, y compris la surveillance des eaux pluviales et des crues
D	Génie géotechnique
E	Génie électrique et mécanique
F	Ingénierie des structures
G	Services d'arpentage professionnels, de géomatique et de services publics, y compris les arpenteurs-géomètres de l'Ontario (LD.S.)
H	Planification de l'infrastructure et gestion des actifs
I	Administration des contrats, gestion de projet et assurance qualité / contrôle de la qualité
J	Plantation d'arbres, audit et autres services d'arboristes, y compris les architectes paysagistes
K	Évaluation environnementale de site, archéologie et patrimoine
L	Génie de l'environnement (plus particulièrement des sites d'enfouissement - fermés et ouverts)
M	Consultant professionnel en ingénierie pour la révision du code du bâtiment de l'Ontario (OBC)
N	Services d'architecture

L'offre de services d'ingénierie a été publiée le 21 janvier 2019 sur la plateforme MERX et le site Web de la Cité. La date d'échéance pour remettre les soumissions était le 26 février 2019 à 14 heures.

Au total, 74 firmes ont consulté les documents de soumission. La municipalité a reçu 34 soumissions de firmes différentes pour un total de 80 catégories.

L'offre de service comprenait 14 catégories de service d'ingénierie. Les soumissions ont seulement été reçues pour 12 catégories des 14. Les deux catégories qui n'ont pas obtenu de soumissions sont : catégorie J- Plantation d'arbres, audit et autres services d'arboristes, y compris les architectes paysagistes et la catégorie M- Consultant professionnel en ingénierie pour la révision du code du bâtiment de l'Ontario (OBC).

Les résultats des offres sélectionnées après évaluations sont les suivants :

Firme d'ingénierie	catégorie	Pointage total (%)	Résultat	Taux moyen (\$)

Pour certaines catégories, il y a moins que 3 firmes de sélectionnées, puisque certaines firmes n'ont pas obtenu la note de passage technique minimal requis de 60% pour procéder plus loin dans l'évaluation.

Les critères d'évaluations étaient les suivants : partie technique avec une valeur de 75%. Une note de 60% était nécessaire afin de passer à la prochaine étape à même la partie technique. L'autre 25% était attribué aux taux monétaires obtenus.

#### 6) **CONSULTATION :**

Plusieurs départements ont été impliqués dans l'évaluation et la révision des offres de services.

#### 7) **RECOMMANDATION OU COMMENTAIRES DU COMITÉ :**

N/A

- 8) **IMPACT FINANCIER (monétaire/matériaux/etc.):**  
L'acceptation de ce rapport n'a pas d'impact directe. Les gestionnaires et directeurs utiliserons cette liste lorsque nécessaire, tout en respectant leur budget et les pouvoirs/autorités d'achat défini dans le Règlement d'approvisionnement.
- 9) **IMPLICATIONS LÉGALES :**  
N/A
- 10) **GESTION DU RISQUE (RISK MANAGEMENT) :**

- 11) **IMPLICATIONS STRATÉGIQUES :**  
Le but d'avoir une liste d'offre de services approuvée est de pouvoir épargné du temps tout en conservant un processus d'achat compétitif.
- 12) **DOCUMENTS D'APPUI:**  
Règlement 2019-XX – Engineering services standing offer

## **CORPORATION OF THE CITY OF CLARENCE-ROCKLAND**

### **BY-LAW NO. 2019-XX**

#### **BEING A BY-LAW TO AUTHORIZE THE CORPORATION OF THE CITY OF CLARENCE-ROCKLAND TO APPROVE THE LIST OF ENGINEERING SERVICES.**

**WHEREAS** Sections 8, 9, and 11 of the Municipal Act, 2001, S.O. 2001, Chapter 25 and amendments thereto provides that every municipal Corporation may pass by-laws for the purpose of governing its affairs as it considers appropriate;

**WHEREAS** the Infrastructure and Planning Department issued a request for standing offers on January 21, 2019 for engineering services;

**WHEREAS** the Council of the Corporation of the City of Clarence-Rockland deems it expedient to approve a standing offer list for engineering services;

**NOW THEREFORE**, the Council of the Corporation of the City of Clarence-Rockland enacts as follows:

- 1. THAT** the twenty nine (29) standing offers received on February 26, 2019 for engineering services be approved as standing offers listed on Schedule "A" attached hereto and forming part of this By-Law;
- 2. THAT** the said standing offers be valid for a period of three (3) years (2019, 2020, 2021) with an option to extend for two (2) additional one-year terms at the discretion of the Director of Infrastructure and Planning;
- 3. THAT** City staff shall call-up the first engineering in the specific category service provider on the approved standing offer list, which in itself shall constitute an individual contract under the terms and conditions established within the Request for Standing Offer #F19 INF2019-001;
- 4. THAT** this by-law shall come into force on the day of its adoption.

**READ, PASSED AND ADOPTED BY COUNCIL THIS XX<sup>TH</sup> DAY OF XX 2019.**
