**Subject:** Ronald Matkowski

Summary of a Call received from:

Ronald Matkowski  
1902 Tweedie Street

- We do not have anything to do for kids in our municipality
  - o The YMCA is closed after 4pm on Saturday, this does not make any sense
  - o The City is giving away a \$2M dollar property for a tennis academy, that nobody will use since nobody is interested in tennis. Against giving a \$2M property.
  - o There is no pickleball court available inside
  - o We should have an indoor building for kids with activity, like a dome or something incorporating a skatepark
  - o Our Splashpad is low quality (garbage)
  - o The Laviolette park is using woodchips, we should be switching to something similar to the park in Cumberland "a rubber material"
- The 8.74% is not justify since there is no service available
- We shop stop building houses, since there's no infrastructure supporting it.
  - o Only 1 way in, 1 way out.
  - o Rockland is meant to be a small town
- Being a public works worker myself for the City of Ottawa, I have never seen asphalt patches done the way Clarence-Rockland does it. It's a complete waste of time.
- Proud member of the Community garden and very happy with that initiative.
