4) **BACKGROUND :**

The City of Clarence-Rockland has a long-standing partnership with SNRCA and have benefited from SNRCA's programs and services. Most of the municipality, currently 72%, is within the Conservation Authority's watershed and jurisdiction. However, the remaining 28% not within SNRCA's jurisdiction represents the most densely populated part of Clarence-Rockland. See Attachment 1 for the Key Map of the South Nation Watershed and the section of Clarence-Rockland currently under SNRCA jurisdiction.

On behalf of the City of Clarence-Rockland, SNRCA currently delivers the following services (only to areas within the SNRCA jurisdiction);

- Conservation Authorities Act regulation and permitting
- Municipal Technical Review Service Agreement
- Septic System Inspections Part 8 of the Ontario Building Code (entire municipality)
- Risk Management Office; Delivery of the Clean Water Act and Municipal Drinking Water Source Protection Implementation

The Administration as well as Council deemed it necessary and advantageous to expand SNRCA's jurisdiction to include the entire jurisdiction of the City of Clarence-Rockland. Consequently, during its 2020 budget deliberations, Council approved the increased cost to expand SNRCA's jurisdiction.

5) **DISCUSSION :**

Council must pass a resolution formally requesting that the SNRCA Board of Directors consider the expansion of the SNRCA's jurisdiction to include the entire jurisdiction of the City of Clarence-Rockland. Once the resolution passed, it will be tabled with SNRCA's Board of Directors. The other partner Municipalities will be given notice of the request under the Conservation Authorities Act.

The expansion of SNRCA's jurisdiction provides many positive benefits, value, cost-effective environmental services and consistent regulations across the entire jurisdiction of Clarence-Rockland. The following are some of these benefits;

- Purchase forested land, receive donations of land and provide tax benefits to donors within the entire municipality.
- Expand on local forestry program outreach and deliver tree planting services within the entire municipality.
- Deliver key environmental planning and review services within the entire municipality, including high-growth areas.
- Support the Municipality with permitting activities along the Ottawa River.
- Provide updated information on the Ottawa River within the whole Municipality.
- Complete floodplain studies and review future planning applications to ensure that they are compliant with new flood risk information.
